

## **Mission Statement of GWW in easy language**

### **Vision**

#### **A vision is a goal you want to achieve**

We want that all people can participate in life.

People with and people without disabilities.

Everybody should have a nice working place.

Everybody should be able to learn.

Everybody should live as he wants to.

Everybody should be able to spend time with other people.

Therefore, we support people.

We don't just talk about it.

We do it.

Therefore, we work together with companies.

Therefore, we work together with governmental agencies.

We want to treat each other in a friendly way.

### **Mission**

#### **A mission is what you want to do**

All wishes are important to us.

We support people with disabilities.

Together, we try to achieve our goals.

Both sides contribute with their part.

We help people,

when they need our help.

We help people to design their lives.

We call them our clients.

We offer the people in GWW a lot of possibilities.  
Everybody can try what he likes.  
You can find things that you like.  
And you can find things that challenge you.

Additionally to people with disabilities we have two other clients.  
Funding agencies are also our clients.  
The Employment Agency or other money lenders, for example.  
Funding agencies give us funds,  
so that we can accompany people.

We also have economic clients.  
They send us orders and give us work.  
Therefore, we build workshops  
where you can work.  
We offer everybody new ideas.  
We offer everybody good things.  
We take care of our environment when we work.  
All clients rely on us.

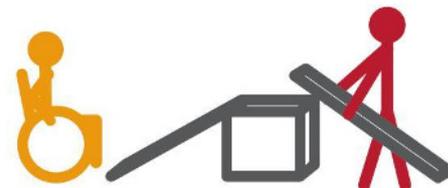

We want to fulfil our clients' wishes.  
Therefore, a lot of people in GWW learn new things.  
We always want to offer new work.  
We look after the health of all people in GWW.  
This is very important.

We wish,  
that all people are able to live and work together.  
People with and people without disabilities.  
We include all people.

We look for solutions,  
even when it's difficult to find them.  
We work for that.

All that helps us to achieve our goals.  
All people should be able to participate in life.

## Core values

### What is especially important to us

5 things are especially important to us:

1. We like diversity in every way.

That means that we appreciate that people are different.  
Every person has its strengths and its weaknesses.  
People come from different countries.  
We like that.

2. We believe in our strengths.

That means we know what we want.  
We know what we have to do.

3. We respect each other.

4. We talk honestly to each other.

5. We work together to achieve our goals.

We treat people, environment and money with carefulness.

Everybody should be able to participate.
